SUMMARY

Computer Science graduate with hands-on experience in machine learning, time series forecasting, data analysis, and business operations. Experienced in designing end-to-end data pipelines, building and comparing predictive models, and deploying data-driven applications. Published researcher on ResearchGate.

EXPERIENCE

Digital Operations Assistant

Apr. 2025 – Jul. 2025

Cojet Safaris — Car Hire & Tour Company

Nairobi, Kenya

- Designed and deployed a Google Sheets CRM system as the company's primary booking and enquiry management platform.
- Conducted UAT on the company website, delivered structured bug reports to the dev team, and coordinated operations between management, field staff, and clients.
- Recognised by the CEO for sustaining business operations independently during website downtime.

ICT & Operations Attachee

Jun. 2023 – Sep. 2023

Huduma Kenya — Ministry of Public Service, Gender & Affirmative Action

Nairobi, Kenya

- Served citizens across multiple government desks, including KRA, NSSF, national IDs, driving licences, and Police Clearance Certificates; utilised the SBA system to manage appointments.
- Commended by the Head of ICT for exemplary performance, teamwork, and integrity in service delivery.

PROJECTS

E-Government Service Demand Prediction System (Python, Prophet, ARIMA, LSTM, Streamlit)

- Designed an end-to-end data pipeline processing 426,491 citizen booking records from the Huduma Kenya SBA system; performed data cleaning, anomaly detection, and time series engineering.
- Built and evaluated three forecasting models (ARIMA, Prophet, LSTM), achieving a best MAPE of 30.4% on NHIF Services; deployed as a live Streamlit dashboard on Streamlit Community Cloud.
- Published on ResearchGate — DOI: 10.13140/RG.2.2.13036.07042

Customer Segmentation & Retention Analysis (Python, Scikit-learn, Pandas, Matplotlib)

- Built an end-to-end customer segmentation pipeline using clustering techniques to identify distinct customer groups and extract actionable retention insights from transactional data.

SKILLS

Languages & Libraries: Python, SQL, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Prophet, Statsmodels

Tools & Platforms: Streamlit, Power BI, Git, Jupyter, PyCharm, Google Colab, MySQL, PostgreSQL

Competencies: Machine Learning, Time Series Forecasting, Predictive Modelling, EDA, Data Cleaning, ETL Pipelines, Data Workflow Design

EDUCATION

BSc. Computer Science — Second Class Honours (Upper Division)

Dec. 2024

University of Nairobi, School of Computing & Informatics

Nairobi, Kenya

- Relevant Coursework: System Analysis & Design, BI & Analytics, AI Programming, Data Structures, Algorithms, Distributed Databases, Computer Network Security, Object-Oriented Programming.

AI Fundamentals — University of Helsinki

Online, 2022

CERTIFICATIONS & RECOGNITION

- Data Science Hackathon — University of Nairobi
- AI Fundamentals — University of Helsinki
- Commended by the Secretary/CEO, Huduma Kenya, for exemplary performance and customer-centric service delivery.
